

## Session summary

With all races set on Dynamic weather setting this is our first rainy race of this second season of F1 2020. A rainy start and a dry ending in France.

It was a good qualify with close timings on the board. An impressive time set by **GEIT Samuel**. He together with **Cringyy** the only ones with a 1.27.

We have seen some retirements on track. Don't do that. Drive in the garage and retire from there. Some laps were destroyed because of it. In future sessions penalties will be applied and the guide will be adjusted if needed to improve our league quality.

The connection was problematic for some. Also the moment of rejoin caused some problems. The tip is that if you disconnect, don't try to rejoin, but first restart the game. After that try to rejoin. It will save time and the rejoin is more successful.

Request:

We ask you all to record the race on a USB stick. It will not cost you bandwidth. You can record one hour (the whole race) on the stick. The clip is only needed on request. This will not happen often, but if we need a clip it is very helpful.

A small request with great appreciation.

## Details per lap

- L1-T2 **IEPOVICH** being knocked off by **EconomicBerry**. Race incident.
- Escaapo vs Fourie**. We think **Escaapo** shouldn't go in that corner at that point. To risky.
- L1-T9/10 **SC** **AWRL Kevin** crashed. DNF and a SC.
- L4-T10 **Lando** lost his control, **Escaapo** could not avoid him. Race incident.
- L27-T9 **DHR Graat** crashed his car in the last lap.

## Details per driver / team *\*Note: not everyone will be mentioned.*

- GEIT Samuel**  
Fantastic Q lap Samuel. Really great. Too bad you had some troubles with the rain. Dry weather next race!
- AWRL Apollo**  
You showed a promising performance and with this you can give the top players some competition. This race was a bit unlucky for you. In the next one you can show the leaders your real skills. Thank you for racing with us.
