

Session summary

A rainy short Qualy at Silverstone. With the full wet tyre **EconomicBerry** made it to Pole Position. Congrats on that. A great achievement. Newcomer **TheArtifact** also nice second place on that.

The race was dry but cloudy. With no SC's a steady session. Very clean, nice battles seen and great podium with **JustTimo**, **Huub** and **DHR Graat**. Nice job boys.

The race was divided in two groups. In both groups great battles.

The winner is **Timo**. Well done. We know you are one of the fastest. But if we see this race, we can see the gap is getting smaller. Drivers get quicker by the week. And the oldies having hard time to keep up. Nice to see the progress.

Details per lap explained at your right and also a small note for a couple of drivers.

Thank you all for this race.

Regards,
WTZFLEX

- L1-T3 **Escaapo** delivered **Fourie** a disadvantage by late braking and crashing into him. This is worth a licence point and will be corrected in the standings.
- L1-T17 An ambitious attempt by **Samuel** to overtake **Timo**. No damage done, but could be worse. No further action.
- L2-T6 The attempt of **TheArtifact** on **Samuel** was to wide. **Samuel** left enough room. No damage. No further action.
- L4-T15 **Escaapo** lost the car and had to pit for the 2nd time. Yellow flag. He retired the car.
- L5-T5 **TheArtifact** lost the car. Yellow flag.
- L5-T16 **Lando** touched **MarkedCarp** a little in the rear. Only damage in seconds. No further action, but try the master your braking point **Lando**!

Details per driver / team **Note: not everyone will be mentioned.*

EconomicBerry

That was a great pole lap **Berry**. A shame the race did not work out. Great job keeping up with that yellow tyre. Really impressive.

MarkedCarp

A shame for that spin in Lap 8. You had great pace and you gave great competition. Especially to **Lando**. Nice, hope to see more of that!

GEIT Samuel and Huub

You were quick **Samuel**. Catching up **Huub** was great to see. If it wasn't for the time penalties....
The last lap **Huub** almost passed you. Was he holding his throttle because of the time penalties? For the people at home it would be nice he overtook you at that last DRS zone.

Iepovich NL and WTZFLEX

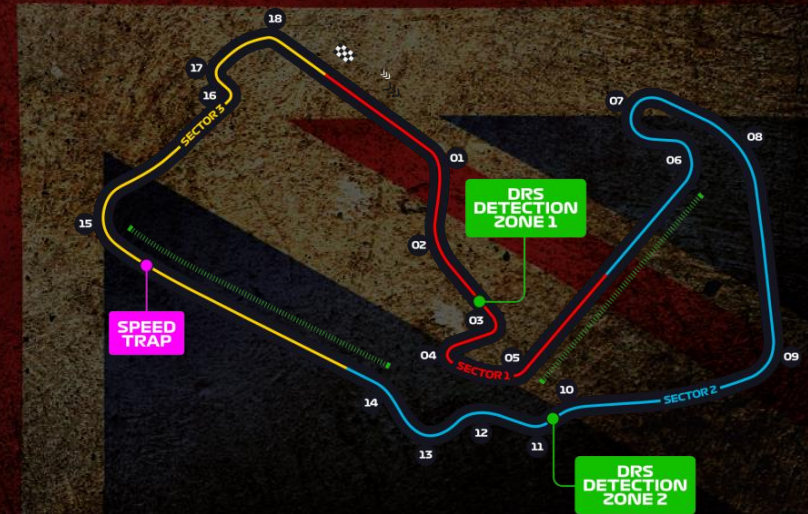

Both Renault drivers. Great battles between the two. UK is always a track where many battles happen. The two drivers have seen that before in this division.

DHR Graat

Driver of the day. Great comeback from P11 to the podium. Also **Fourie** was nominated for drivers of the day. The spin caused by **Escaapo** did not bother him at all if we see his result. Well done both drivers.

TheArtifact

Promising driver. Great speed. Maybe he has to get used to the league racing business. We are happy to have you in this division and hope to see some good clean performances. Thank you for joining.
