

Session summary

Most of the time it's raining in Spa. Also in this session. The entire short quali was wet. In the race just a couple of rounds.

Everyone was waiting for a dry track to set a time on normal tyres. This wasn't possible, so the fastest time was set on intermediates. Great 3rd spot for **Lexidas**.

The F1 games connection issues seems to be solved as the quality is very good. There hasn't been a restart needed in a long time. Positive note on that. There are disconnections sometimes. This time **Huub** had to rejoin the session at the start of the race.

No incidents in the first lap. Very nice on for Spa in wet conditions! Smooth start, smooth race, and a sc in the end. Great battles seen, great clean battles seen. Some incidents were there. We will highlight the things we have seen.

On to **Monza!**

Details per lap

- L1-T7 **EconomicBerry** touches **Iepovich NL**. Looked like his own fault. Bad luck. Yellow flag.
- L6-T17 **Iepovich NL** had to avoid the double pit-stop with **WTZFLEX**. This cost him a spin and many seconds. Yellow flag.
- L8-T10 Wing damage again for **Iepovich NL** as he hits the left curb and loses the car. Yellow flag.
- L10 **Berry** retires the car in the pit.
- L12-T13 **Fourie** spins. Yellow flag.
- L17-T14 Guest driver **Petwardo** crashed his car. Safety car deployed.
- L21-T6 An incident involving **Escaapo** and **Fourie**. The incident was not seen and is only seen from the stream of **GEIT Samuel**. Hard to judge who to blame the DNG of **Fourie**. It looked like **Fourie** had some hard time to get that corner as **Escaapo** left enough room.
- L21-T6 **Stef** and **Jdekker** had contact. Seen from the stream of **Jdekker** the room was plenty. Race incident.
- L22-T10 In the last lap **WTZFLEX** took a risk by taking the full left curb. Not a good idea as he spins. Yellow flag.

Details per driver / team *Note: not everyone will be mentioned.

Timo and Cringyy

A whole race battle. We wish we could see some footage sometime of your battles. We looking for a streamer at the moment. It also would be nice if you guys could clip our stream races. Congrats **Timo** for the win!

Iepovich NL

The last lap on the green tyre was a disaster. The spin in L8 wasn't pretty also. But you continued racing. You deserved a SC by doing so and after that still a good performance. That's how we want to see it at WTZ. Everything can happen and it's not over till it's over.

Thombex

Man of the match. Like we said before. Good racing is key, but also avoiding the track limits. Especially if a SC is showing up in the last couple of rounds. You controlled both and it provided you good result. Nice one.

Jdekker7

From Div-2 to Div-1. A driver with great speed and also the mentality to win. Nothing wrong with that, unless if it is a bit too much at some moments. It's nice to have good results, but it is not a life depending thing. It's all for fun, for everyone. Please keep that in mind.

Try to keep your patience at certain moments. At the last two rounds you want to gain as much positions as possible, like anybody else. In next races, try to do it in a more subtle way. If you re-watch your own race in the last couple of laps with **GEIT Samuel** and **Escaapo** we ask you to judge your own driving. Try to be critical of yourself and find points for improvement.

Your own comments during your race on Twitch's stream are not as the regular members of our division want to interact with each other. It's all with a negative touch and a lot of anger. We respect each other, some of us for many years. We'd appreciate it if you could customize the way you commentate so other members can enjoy watching your stream if we upload it to our YouTube channel. Now nobody can because everyone is an idiot. We cannot oblige it, of course, but for good continuity for the division it is necessary.

You can be a very skilled driver and we are happy that you are racing with us, but as all drivers, nobody is perfect. But we do strive to be it. Thank you for your understanding.
